**Work on the recipient scenario with trainees:**

→ First round: The AFPA allowed me to work with recipients from one of their courses. So, Mr Jacques ACHARD (that represents the AFPA in our partnership with French actors of the VET) invited me to spend a day with his learners (trainees from "professional trainer" training course). 15 trainees have worked on the recipient scenario, divided in 3 subgroups, by using the "set up evaluation" function of the online tool from the "control center" tab. The aim was to identify which criteria are relevant or not for a recipient that would be involved in the evaluation by using EduPlan tool.

→ Second round (see pictures below): As I am [Gilles TRICHET, pilot for SICFOR-FCF] myself trainer on the equivalent "professional trainer" training course in another VET structure (the VET Centre for adults Ste Croix-St Euverte in Orléans), I've asked my 10 trainees to fill the online questionnaire, using the evaluation tool in 3 subgroups. Each subgroup has worked on the recipient scenario previously configured on January by the AFPA trainees. 6 voluntary trainees have filled afterwards the benchmarking analysis questionnaire, 2 from each subgroup.
